

# Agricultural Medicine:

## Occupational and Environmental Health for Rural Health and Safety Professionals

### Presented by the Vermont Farm Health and Safety Coalition

This comprehensive interdisciplinary training provides information and skills to address a wide range of agricultural occupational and environmental health issues. It is designed for: Primary Care and Hospital Emergency Room practitioners; Chiropractors; District EMTs; Physical and Occupational Therapists; Social Workers; Behavioral Health Clinicians, Public Health and Department of Labor Specialists, Veterinarians, and other Agricultural Professionals serving rural areas. The 38 academic and practicing faculty come from Vermont, Iowa, New Hampshire, New York and North Carolina. National certification testing to become an official AgriSafe provider is included in the on-site schedule and provided through the University of Iowa Center for Agricultural Safety and Health.

### Training Topics include:

- Acute Agricultural Injuries
- Zoonotic Disease
- Environmental Issues and Climate Change
- Respiratory Diseases
- Agricultural Pesticides
- Vector Borne Diseases
- Behavioral Health Issues
- Musculoskeletal Conditions
- Cancer in Agricultural Populations
- Oral Health
- Agricultural Skin Diseases
- Child Development and Farm Safety Issues
- Geriatric Health and Safety Issues
- Farming with Disabilities
- Tools for Integrating Occupational Health into Established Health Care Practices
